

## **SR65 Third Feather River Bridge**

**2002 ITIP FUNDING NEED :** \$24,452,000  
(IIP funds to be transferred to Sutter 99 Corridor Project)

### **Project Location:**

Yuba 65 PM 9.2-12.2  
EA: 297300  
PPNO: A0362A

### **Project Description:**

Construct a 2-lane expressway and bridge on a new alignment between SR-65 in Yuba County and SR 99 in Sutter County

### **Engineer's Estimate: (1,000's)**

	PREV	RIP	IIP
PA/ED	\$871	\$672	\$2,957
PS&E	\$4,202	-\$3,230	-\$972
R/W S	\$2,479	-\$442	-\$2,037
R/W	\$24,400		-\$24,400
TOTAL	\$31,952	\$3,000	-\$24,452

### **Future Funding Need:**

PS&E	\$ 8,000,000
R/W S	\$ 5,000,000
CON S	\$ 12,000,000
R/W	\$ 50,000,000
CON	\$ 400,000,000

<b>Project Schedule:</b>	PS&E	04/05
	R/W S	04/05
	CON S	06/07
	R/W	04/05
	CON	06/07

## **Project Information**

### **Purpose & Need for the Project:**

Presently, there are two bridges located in Yuba City and Marysville that provide connections to SR-70, 99, 65, and 20, which converge in the Yuba-Sutter area. These routes are heavily signalized and provide circulation for local streets and have continued to experience commercial strip development. Growth forecasts for the Sacramento to Chico corridor and the Marysville to Roseville corridor indicate that congestion and delays will continue to increase. The purpose of the project is to provide freeway system linkage between SR's 65, 70 & 99, to provide the area west of the Feather River access to the freeway being developed on the SR 70 corridor, to connect the urbanized areas of Yuba City and Marysville to the state freeway system, to improve local commute and interregional

travel, promote social and economic development, improve travel safety as well as provide alternate evacuation route during man made or natural disasters.

### **Scope of Project:**

Construct a new 2-lane expressway and bridge on a new alignment between SR 65/70 and SR 99.

Project has been on hold pending development of feasible financial plan.
